TOO WISE TO FALL INTO REED'S TRAP.

We wish to congratulate the News and Observer upon getting its eyes open on an important matter.

It will be remembered that when the tariff bill passed the House, that Speaker Reed announced that he would not appoint committees and that the House would sit down and do nothing till the Senate passed the bill. To the surprise of the public, Mr. Bailey, the Democratic leader, agreed to this "do nothing" policy of the Republicans. At this point the Peoples Party Congress under the leadership of Jerry Simpson, came to the front and denounced and exposed this "do nothing" policy agreed on by Reed and Bailey, and demanded that the committees be appointed, and Congress proceed to legislate. The News and Observer at first tried to defend the position taken by Bailey. The following editorial paragraph from its issue of May 1st, shows that the News and Observer has gotten right:

"Jerry Simpson may not wear any socks, but he is a man of sense. He is pursuing, conjointly with Bland, McMillan and De Armond, the wise course."

The scheme of Bailey and Reed was to side track the money question and make the tariff the leading issue in the next campaign. If the Peoples Party had not been on guard the scheme might have worked. It will be remembered that Bailey so greatly disdained with Mr. Bryan as to the vital issues before the country that he came very near bolting his nomination.

Since the Peoples Party has taken the lead and exposed the Reed and Bailey scheme to have another sham battle over the tariff, the Democratic Congressmen Bland, McMillan, Richardson and De Armond who stood nearest to Mr. Bryan, have deserted Bailey and are now looking up the position taken by the Peoples Party. It is the only wise and true course.

IT IS A BONDHOLDERS WAR.

The struggle now going on between Cuba and Spain and between Greece and Turkey is more than the ordinary war between different nations and countries. It is a war of bondholders against liberty and the masses. The masses of the people of Europe sympathize with the Christians and liberty-loving people of Cuba and Greece. In their brave and heroic contest against the cruelties and oppression of the Turks, but the rulers and the powers that govern these other countries are not on the side of the people or of liberty and Christianity. The powers that govern England, France, Austria, Russia and Italy owe about nine thousand millions of Turkish bonds. They think of these bonds and the interest that they regularly draw on them than they do of humanity, life or liberty. Therefore, the allied powers of Europe look on with complacency, while the heroic Greeks. If it were necessary these bondholders would send aid to the Turks. This is the secret of why Europe allowed the Turks to massacre the Christian Armenians in Armenia.

It is the same bondholders who God is gold, who are backing Spain in their cruelties and oppression of Cuba. Cuba is rich and fertile, and Spain must continue to hold Cuba and lay heavy and grievous taxes upon that island in order to raise sufficient revenue to pay the bondholders their interest. These same bondholders had enough influence with Cleveland, and we fear will have enough with McKinley to prevent this government from raising its hands or voice in the interests of the people who are outraged and

oppressed worse than our forefathers were in 1776. It is a crying and burning shame; and the blood thus spilt is the darkest stain that could be placed upon the closing pages of the nineteenth century.

IS THERE A "CAT IN THE MEAT TUB?"

A great many honest and brave Populists differed as to the wisdom of holding a general conference of the party at this time. The only legal authority that could call a conference is the national committee. The question was submitted to the national committee by the national chairman in the regular way provided by the plan of organization of the party. The committee, by a large majority, decided against the conference. This should settle the matter. There can be no conference that the party would recognize unless it should be called by the official organization. It is true that any number of citizens can meet at any time and confer. No faction or minority of a party can meet and take action in the name of the party.

The Memphis committee has disregarded the action and decision of the regular constituted organization of the party. They have revolted against the party and called a conference—what can be their purpose? Will any one attend except the few who approve their revolutionary cause? It will be a faction. Can a faction, by defying the will of the majority, produce unity and harmony? No. Then they don't want harmony and unity. Coxey, one of the leading spirits in this movement withdrew from the party last winter. He called a conference at St. Louis in January to organize a party with his "good roads and homesteads" as a platform. He had twelve persons present. He then adjourned to Memphis and was then instrumental in getting the Memphis committee appointed to call a conference. It is this Coxey committee that has bolted the organization of the party and called a conference. Coxey in his paper says that he favors the appointment of a national committee at this conference to represent their faction. His scheme is to divide the party. He wants a party that will nominate Coxey for President in 1900. If Coxey can divide reformers into enough factions then the gold syndicate and the monopolies and trusts can win by a plurality vote in 1900. This is "the cat in the meat tub." Let all patriots who have been fooled by this conference scheme be on their guard. As we have said above there was an honest difference of opinion as to the wisdom of a conference. The matter was submitted to a committee for settlement. The committee by a large majority has settled it. Therefore there can be no difference of opinion now among those who favor unity and harmony in our party as to the wise cause. We must all stand by the action of the committee.

A FALSE AND ABUSIVE POSITION.

The following press dispatch states the position of the new Republican Senator from Kentucky:

FRANKFORT, Ky., April 20th—Senator-elect Deboe last night authorized the following statement:

"I favor a Republican policy in accordance with the St. Louis platform. 'I am for sound money, a protective tariff, for the arbitration treaty, against trusts and combines which are formed to interfere with rights of citizens, and for such laws as will best serve to build up American institutions.'"

How can a man be opposed to trusts and at the same time favor the gold standard? How can a man who is intelligent and honest oppose an evil by supporting the cause that produces the evil. The gold standard and transportation monopoly are the twin curses that have directly or indirectly produced every trust in existence. Increase the legal tender money and stop the discrimination in transportation rates, and every trust will vanish as mist before the rising sun of liberty. Deboe's position is absurd. The fact is, he is a factor of trusts and will vote to nourish and promote them every time he votes on the side of monopoly and the gold syndicate.

M. B.

BYRON FOR SCIENTIFIC MONEY.

The Free Republic (edited by J. A. Parker, the chairman of the Peoples Party State committee of Kentucky) says that Hon. W. J. Bryan in his recent speech in that State took a square, bold position for full legal tender money. That he holds that legal money should be a full legal tender, to be issued by the government and not by banks—and that the quantity of legal tender money should be increased with the increase of population and business. This has always been Mr. Bryan's position. He has never favored the scheme of the bankers to have one dollar redeemed in another dollar. The coin redemption clause is the greatest defect in the Chicago platform. The Democratic party must break away from that heresy. Mr. Bryan has also taken a very bold and strong position on the transportation and monopoly question. His recent speech before the Supreme Court shows that he is a statesman and a patriot. He has taken the position that we would expect Jefferson, Jackson and Lincoln to take if they were living.

THEY MAKE THE ENEMY REJOICE.

The following clipped from an editorial in the Oklahoma Representative, edited by one of the Vincent boys, is representative of the sentiment of a large part of the reform press:

"It seems to us that it is about time to call a halt in this business of stirring up strife within the ranks of the Peoples Party. Here are several papers calling themselves Populist which devote column after column to abuse of prominent men in our party, with only one end in view—to make the name of the party a laughing stock."

We do not accuse Vandervoort, Morgan and company of being traitors, sell-outs, Hanna hirelings, etc., as some extremists have done, but we do say this, if Mark Hanna had actually bought them, body, soul and breeches, he could not set them at work any better calculated to make the goldbugs rejoice than that which they are now doing."

HOW TO FIND OUT.

Fill a bottle or common water glass with urine and let it stand twenty-four hours; a sediment or settling indicates a diseased condition of the kidneys. When urine stains linen it is evidence of kidney trouble. Frequent desire to urinate or pain in the back, is also convincing proof that the kidneys and bladder are out of order.

WHAT TO DO.

There is comfort in the knowledge often expressed that Dr. Kilmor's Swamp-Root, the great kidney remedy, gives every wish in relieving pain in the back, kidneys, liver, bladder, and every part of the urinary passages. It cures inability to hold urine and painful pain in passing it, or bad odor following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to get up during the night to urinate. The mild and extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases. It is the best medicine you should have. Sold by druggists, grocery stores and one dollar. For a sample bottle and pamphlet, send your name and full postal address to Dr. J. C. Kilmor, N. C., Birmingham, N. C. The proprietors of this paper guarantee the genuineness of this medicine.

CITY ELECTION.

Raleigh had a more orderly election than last Monday. Voting began early and by noon the larger portion of the population had cast their ballots. Mayor William Russ has been re-elected by a majority of 600. Mr. Charles F. Lumsden for tax collector and Mr. Ham Smith, city clerk, were both elected. In the first ward the regular Democratic ticket, consisting of Messrs. Powell, Ivey and Riddle was elected. In the second ward Messrs. Drewry, Goodall and Parrish won by the usual Democratic majority. The highest fight of the day was waged in the third ward. The Democrats elected their candidate by a small majority.

In the fourth ward the Republicans elected three aldermen.

TURKEY IS TIRED.

Sham Pasha Desires a Five Day's Armistice—Feeling Influential Circles that Nothing is to be Gained by Further Prosecution of the War Against Greece. ATHENS, May 3.—It is reported that the island of Mytilon off the coast of Asia Minor has revolted in favor of Greece. The Greek fleet will be sent there forthwith. CONSTANTINOPLE, May 3.—Word has been received that the Turkish detachment from Thessaly occupies Kardista. GREEK STRIKE, May 3.—There is a renewal of feeling in influential circles that Turkey has nothing to gain by further prosecution of war against Greece and the powers might as well intervene. The whole of the second class reserves of the third army corps, stationed at Salonica, have been called out for active service. The commander of the Turkish forces in Asia and Epirus says that the Turks have captured and occupied several towns. ATHENS, May 3.—Advices from Phanar say that Edhem Pasha, commander of the Turkish forces in Thessaly, has sent an officer with a flag of truce to the headquarters of the Greek army at Parvusa requesting an armistice of five days. ATHENS, May 3.—It is again reported that the Bulgarian irregulars numbering two hundred crossed the frontier into Macedonia. AKA, May 5.—Turks have occupied the bridge at Louros.

NO SPECIAL MEETING.

Only Nine County Alliances Have Asks for a Meeting, and the President Thinks It Unnecessary. RIDGEWAY, N. C., April 29, 1897. To the Alliance of North Carolina: DEAR BRETHREN:—As only nine County Alliances have expressed a wish for a special meeting of the State Alliance, and as the constitution lodges discretionary power in the President, no special meeting will be called May the 3rd. Your Executive Committee meets May the 7th, and it may recommend an earlier session of the State Alliance for this year than our regular time of meeting. A full statement of our financial condition, including all receipts and disbursements on account of the shoe

This is the cradle in which grew That thought of a philanthropic brain; A remedy that would make life new For the afflicted that were racked with pain. 'Twas sarsaparilla, as made, you know By Ayer, some 50 years ago.

Ayer's Sarsaparilla

was in its infancy half a century ago. To-day it doth "be-trickle the narrow world like a colossus." What is the secret of its power? Its cures! The wonder of them! Imitators have followed it from the beginning of its success. They are still behind it. Wearing the only medal granted to sarsaparilla in the World's Fair of 1893, it points proudly to its record. Others imitate the remedy; they can't imitate the record:

factory and tannery, will be forwarded to the various subordinate and County Alliances immediately after the meeting of the Executive Committee.

The seven thousand dollars of your fund, invested in N. C. cent. bonds, set apart by the last State Alliance as a special reserve fund to maintain the credit of our Business Agent in case of the failure of our manufacturing enterprises should never be encroached upon. Twenty-five thousand dollars have been invested in real estate and machinery at Hillsboro.

The profits of the Business Agency, supplemented by other funds now on hand, and such contributions as we should raise without any trouble will, in my opinion, enable us to operate our factories. Your Executive Committee will recommend such action as it may deem fit to raise the necessary additional fund, and will apportion the same to the various counties. Unity of purpose and action on your part will insure success.

JOHN GRAHAM, Pres. N. C. F. S. A.

A LETTER FROM RUTHERFORD.

Hon. L. Ferguson Writes a Letter Full of Hard Words to the Political Situation, and the Best Policy for the Party—Why a Conference Would Not Be Wise at This Time. LOGAN'S STORE, N. C., April 26, '97. HON. MARION BUTLER, My Dear Sir:—I am not a member of the national committee of the Peoples Party, but I think you are right in calling a conference so soon after the election. The principles of the party are the same now that they have always been, and so a conference could not expect to do anything by way of a change in principles. There could be no other object in such a conference but to raise the party on a policy for the party to pursue. It is too soon now to adopt a party policy. Let our Senators and Representatives in Congress do all they can for the cause of reform now until close to 1900, and let the party line up and work in union with them. We will have a better basis on which to shape our policy. The Populists in Rutherford county are heartily in accord with the course taken by you and the members of the late General Assembly in the senatorial contest. They are fully in accord with you as chairman of the national committee.

Your sincere friend, L. FERGUSON.

That tired feeling is due to impoverished blood.

Enrich the blood with Hood's Sarsaparilla and be strong and vigorous.

TAKE CARE OF THE SCHOOL FUND.

School Committees in Some Counties Being Imposed Upon By Agents Selling Supplies—Investigate Fully Before Buying and Paying for Same. For The Caucasian.

Mr. T. C. ROBINSON, chairman Board of County Commissioners, Wadesboro, N. C.

DEAR SIR:—I wish to commend you for your care in signing vouchers for school supplies. I know nothing of the goods sold in your county but it is your duty as an officer to see to it that the school fund is wisely spent in your county. It matters not even if the orders are signed by every committee member, if you have evidence that the order is for goods of no practical value to the school, or if the price paid is exorbitant then it is your duty to refuse to sign such orders and save the school fund and see that the money is spent only for the law but as every one knows, it is not so simple.

These committees who sign these orders for these school supplies are good, honest, conscientious men, but they are often deceived as to what they purchase from these agents. Of course these men think that they are doing what is best, but when orders come in for \$17.00 cartage by two committees making their mark and not being able to write their names, then it becomes your bounden duty to investigate the matter before signing such orders.

I have seen just such orders as this. I am sorry to say that it had the signature of the chairman county board of education of the county in which it was issued.

According to section 2555 of the school law, even if the chairman of the county board of education is not a member of the board, it must be approved by the county board of education, which is the board of commissioners until after the first Monday in June, when the new county board of education is elected.

We must take care of the school fund and see that it is not squandered by the very best interests of the public schools.

Yours very truly, C. H. MERRICK, Superintendent Public Instruction, N. C.

WHAT IS THE PURPOSE OF THE COXEVITES.

They Favor a Policy That Will Keep Results From The Party and Keep Them From Ever Gaining a Victory. Farmers Tribune.

The addresses recently published by the Populist Congress, as published by our middle-of-the-roaders under the leadership of Coxey.

They don't appear to be able to find any fault with the language used or the sentiments expressed, but only with the source from which they emanate. This element of kickers seem to think that whenever a Populist succeeds in getting elected to a public office or to a chairmanship or committee in the party that he at once becomes a subject for suspicion. Why? Is it jealousy, or is it because the mission of these kickers is to prevent the Peoples party from attaining to success and thus knock out the old rotten Republicans and the monopoly classes? How can the party succeed unless it gets possession of the offices, and how can it hold the offices if the rank and file repudiate the leaders as rapidly as they succeed in getting into office?

The Goldbugs and Monopolists are Much Disappointed and Chagrined at This. Hickory Mercury.

The goldbug papers have been rejoicing all the while at the fight of the middle-of-the-roaders (so called) were making against Chairman Butler. These papers hoped these kickers and Republican allies would down him, and thereby, so split the Populist party, as to not bother them any more in trying to fool the people over minor issues.

Horrible Reality.

Parkersburg, W. Va., May 1.—Last night a negro woman, who had managed an entrance to the House of an old woman named Shook, living alone at Adams, in the interior of Tyler county, and demanded money which they evidently knew was in the house. The aged lady refused to tell the hiding place of the money, and she was bound and gagged and the inhuman wretches commenced to torture her. The feet of the woman were first beaten with switches and then applied lighted candles to her feet, burning them to a crisp. This did not bring forth the desired information, and next her face was mutilated. The fiends held the lighted candles to her head and one ear as the hair was burned off her head. The victim fainted during the frightful punishment, but the men resuscitated her and she then told them where the money was hidden. The robbers got in all about \$500. The woman cannot recover. A posse is on the track of the perpetrators of the outrage, and if caught they will be put to death at once, death at the stake being the punishment the pursuers have decided upon.

That Pe-r-u-na is unequalled as a spring medicine is testified by a great many people every spring. When one is run down, listless and tired, depressed with that peculiar distressing trouble popularly known as Spring Fever, Pe-r-u-na should always be taken, as it is sure to give prompt and permanent relief.

Leopold A. Adams, Mich., writes as follows: "It affords me much pleasure to testify to the merits of your Pe-r-u-na. I can speak in the highest terms of it, having used it for five years as a spring medicine with great benefit to myself and I recommend it to my friends with like results." J. H. Stuart, Eastland, Tex., the opposite end of the continent, corroborates his statements as follows: "I purchased a bottle of Pe-r-u-na and it was used by myself and wife as a spring medicine. I consider it the best dollar's worth I ever bought. My wife has used your remedies with gratifying results."

TENNESSEE CENTENNIAL.

The President Touches the Button at the White House and Sets the Wheels Agoing. NASHVILLE, Tenn., May 1.—The Tennessee Centennial Exposition opened this morning and was largely attended. The opening ceremonies began with a civil parade with about 3,000 men in line. The parade acted as an escort to Governor Robert L. Taylor, who was also accompanied by State and city officers and his full staff. The parade ended at the auditorium on the exposition grounds where short ceremonies were held at 11 o'clock. Promptly at noon the machinery on the expanded grounds was started by President McKinley, who presided from a electric button in the White House. The day was observed as a public holiday. Among the guests were Hon. Adlai E. Stevenson and his party and Governor Stevenson of Missouri.

Horrible Reality.

Parkersburg, W. Va., May 1.—Last night a negro woman, who had managed an entrance to the House of an old woman named Shook, living alone at Adams, in the interior of Tyler county, and demanded money which they evidently knew was in the house. The aged lady refused to tell the hiding place of the money, and she was bound and gagged and the inhuman wretches commenced to torture her. The feet of the woman were first beaten with switches and then applied lighted candles to her feet, burning them to a crisp. This did not bring forth the desired information, and next her face was mutilated. The fiends held the lighted candles to her head and one ear as the hair was burned off her head. The victim fainted during the frightful punishment, but the men resuscitated her and she then told them where the money was hidden. The robbers got in all about \$500. The woman cannot recover. A posse is on the track of the perpetrators of the outrage, and if caught they will be put to death at once, death at the stake being the punishment the pursuers have decided upon.

Address,

THE CAUCASIAN, RALEIGH, N. C.

THE CAUCASIAN desires to handle the advertisements of only first-class business firms and we intend to keep out all "flakes" advertising—thereby protect our readers and honest advertisers alike. We believe that the only way for us to make money by advertising is to make money for those with whom we deal, and we can do this because we have a large and progressive paper.

If you think advertising is simply a matter of sticking in ANY paper a few lines of old poster type or a few figures, we should prefer not to be consulted until you learn that this is a mistake. Advertising is a science.

An advertisement should be written carefully and studied so as to catch the public eye and then be run in a paper that will carry your advertisement to the homes and business of the people who will be your customers. It is throwing away money to advertise in a paper that does not reach the masses, and therefore you pay your money but do not talk to the people. Upon application we will send you a card stating our rates.
